PROPERTY INSURANCE FOR PROPERTY PEOPLE

Why use the Morrison Insurance Solutions Mobile Claims App?

## Five reasons why you should use the Morrison Insurance Solutions Mobile Claims App

1. The App guides you through the claims submission process. Encouraging you to capture the correct information that we need to handle the claim effectively on your behalf;
2. It only takes between 6-7 minutes on average to complete a claims submission via the App;
3. Information is then submitted to us and your designated person (i.e. Transport Manager / Property Manager / Insurance Manager) at the same time;
4. The standardised reports make it easier for our Claims Team to handle the administrative side of the claim -saving time on your claims being handled and resolved. The time saved can result in 20% savings on claims cost\*;
5. Using the App successfully can result in insurers offering improved insurance arrangements and reduced premiums at your next renewal.
